## A

Acinic cell, carcinoma of, of salivary origin, clinicopathologic study of, 924  
Acrosiroma, clear cell, malignant, study of, 641  
Active specific intralymphatic immunotherapy, Phase I study of, 2215  
Adenocarcinoma  
ceruminous gland, light and electron microscopic study, 545  
cervical, study of in Jewish women, 2464  
prostatic, study of well differentiated, 2046  
rectosigmoid, anterior resection and primary anastomosis following high dose preoperative irradiation for, 2065  
renal, metastatic, pulmonary resection for, 712  
stomach, review of 1,497 cases, 941  
Adenoma  
pleomorphic, breast, female, clinico-radiologically mimicking carcinoma, 659  
toxic, of thyroid gland, light and electron microscopic characteristics of, 528  
Adrenal, carcinoma of, cortex, genetic and pathologic findings in kindred with hereditary, 2055  
Alkaline phosphate, localization of in studies on fine structure of osteoblastoma, 1811  
Alpha-fetoprotein  
serum levels of, in patient with primary intracranial germ cell tumor, 2315  
serum, use in diagnosis and management of endodermal and mixed germ cell tumor of ovary, 272  
Alpha Heavy Chain Disease, new presentation of, North American polypoid gastrointestinal lymphoma, 1161  
Ampulla of vater, embryonal rhabdomyosarcoma of, first case to appear in world literature, 365  
Amylase, salivary type, ectopic production of, by pseudomesotheliomatous carcinoma of lung, 1522  
Amyloid  
histochemical and ultrastructural study of in stroma of tubular carcinoma of salivary gland, 1836  
presence of in reticulum cell sarcoma, immunoperoxidase study of, 1883  
Androgen(s), therapy, case report of leukemic reticuloendotheliosis with peripheral blood remission while on, 1964  
Anesthesia, halothane, relationship(s) with surgery, immunosuppression and artificial pulmonary metastases, 827  
Angiogenesis, marker of preneoplastic lesions of human breast, 239

Angiography, contribution of to diagnosis, staging and assessment of radiation and chemotherapy of solid abdominal malignancies in children, 468  
Angioimmunoblastic lymphadenopathy malignant lymphoma in, 578  
ultrastructural and immunologic study of, 507  
Antiestrogens, use of in treatment of breast cancer in correlation with estrogen receptor values, 797  
Antigen(s)  
hepatitis B, detection of in black patients with hepatocellular carcinoma, 245  
melanoma skin test, of improved sensitivity, prepared from vesicular stomatitis virus-infected tumor cells, 1781  
Artery, carotid, radiation-induced disease of, 130  
Arterial occlusions, localized, occurrence of in patients treated with pelvic field radiation for cancer, 2158  
Aryl hydrocarbon hydroxylase activity, analysis of in human lung tissue, pulmonary macrophages and blood lymphocytes, 2292  
Aspergillosis, pulmonary, invasive, pathoradiologic correlation of, in compromised host, 2028

## B

Bacterial infections, relationship to radiotherapy, chemotherapy and splenectomy in pediatric Hodgkin's disease, 1949  
BCG  
infection, disseminated, clinical and immunologic studies of, 1771  
intralesional, randomized prospective study of versus intralesional dinitrochlorobenzene in treatment of recurrent metastatic cutaneous malignant melanoma, 2456  
pulmonary granulomas induced by, 2209  
severe thrombocytopenia following intralesional therapy with, 820  
Bladder, carcinoma(s) of, isoantigens A, B and H in, following radiotherapy, 1739  
Blood  
malignancies, contacts among patients with, 2379  
platelet dysfunction acquired following mithramycin therapy, 448  
platelet dysfunction fatal myeloproliferative syndrome in family with thrombocytopenia and, 1959  
Body weight, association with recurrent breast cancer, 1590

Body weight, association with recurrent breast cancer, 1590

## Bone

infarctions, medullary, association with malignant fibrous histiocytoma and pleomorphic sarcoma, 607  
tumor(s), giant cell, cryosurgery in treatment of, 957

## Bone marrow

acid phosphatase measurement of by radioimmunoassay, 2286  
blasts, lack of prognostic significance of pretreatment labeling and mitotic indices of, in acute nonlymphocytic leukemia, 1154  
blood count depression in lymphoma, value of  $^{111}\text{Indium}$  chloride in diagnosis of, 143  
enzymes, lack of usefulness in staging patients with prostatic cancer, 1433  
examination of in breast cancer, 670

## Bone resorbing activity, production of in poorly differentiated monocytic malignancy, 2438

## Bone scans

in adjuvant breast cancer program, predictive value of, 138  
of marrow, use of  $^{111}\text{Indium}$  chloride in diagnosis of blood count depression in lymphoma, 143

## Brain

cerebellum, primary malignant melanoma of, case with metastases outside nervous system, 344  
prophylactic irradiation of, effectiveness in small cell carcinoma of lung, 2149  
tumor(s) of, development of clonogenic cell assay for human, 2305  
tumor(s) of, genetic and pathologic findings in kindred with hereditary, 2055

## Breast

bilateral, case report of norepinephrine-producing tumors in, 2002  
cancer of, adjuvant chemotherapy after mastectomy for, 2088  
cancer of, adjuvant chemoimmunotherapy for Stage II and Stage III, 1064  
cancer of, adriamycin in combination chemotherapy for, 2078  
cancer of, analysis of benefits of serial screening for, based upon mathematical model of, 1550  
cancer of, association between reserpine use and, 761  
cancer of, association of body weight with recurrent, 1590  
cancer of, bone marrow examination in, 670  
cancer of, carcinomatous versus radiation-induced brachial plexus neuropathy in, 2154  
cancer of, combination chemotherapy for, 392  
cancer of, combination chemotherapy for metastatic, 2073  
cancer, combination chemotherapy treatment of metastatic, 396  
cancer of, Cowden's disease as cutaneous marker of, 2393

cancer of, effect(s) of serum blocking factors on leukocyte adherence inhibition in, 1289  
cancer of, electron beam therapy in treating local recurrence of, in previously irradiated fields, 991  
cancer of, genetic and pathologic findings in kindred with hereditary, 2055  
cancer of, immunofluorescent detection of estrogen receptors in, 907  
cancer of, implications from SEER data on management of, 787  
cancer of, metastatic, treatment of with adriamycin and CCNU, 1235  
cancer of, New England Prototype Network Demonstration Project in, 1002  
cancer of, parenchymal patterns as risk indicator for prevalent and incident, 1093  
cancer of, patterns of relapse and survival following radical mastectomy, 1170  
cancer of, pituitary-ovarian function in patients with on adjuvant chemoimmunotherapy, 2084  
cancer of, plasma TSH and  $T_4$  levels in, 666  
cancer of, primary, operable, immunologic reactivity in, 84  
cancer of, primary, recent trends in treatment of, 2399  
cancer of, reproductive history and risk of, 747  
cancer of, use of antiestrogens in treatment of, correlation with estrogen receptor values, 797  
cancer of, use of mepitiostane as treatment in advanced, 758

## Breast

carcinoma of, inflammatory, 1595  
carcinoma of, quantitative approach to determining disease response during therapy using multiple biologic markers, 1685  
carcinoma of, serum fucose-protein ratio in, comparisons with CEA and hCG, 1871  
cystosarcoma phyllodes of, 1179  
examination programs, periodic, prospective evaluation of, 728  
fibromatosis of, 1409  
lesions, occult, clinically clinicopathologic correlations and significance of, 1147  
pleomorphic adenoma, clinico-radiologically mimicking carcinoma, 659  
preneoplastic lesions, angiogenesis as marker of, 239  
tumor(s) of, single human, application of microchemical technique to elucidation of enzyme activity profiles within, 1863

## Breast/ovary, carcinoma of, familial association of, 1543

Bronchial cells, metaplastic and neoplastic, cytomorphological grading and Feulgen DNA-analysis of, 1511

## C

C3DP, serum levels of, correlation of with chemotherapeutic management of cancer patients, 2099

Calcium, lack of usefulness in staging patients with prostatic cancer, 1433

Cancer

- breast, adjuvant chemotherapy after mastectomy for, 2088
- breast, adjuvant chemoimmunotherapy for Stage II and Stage III, 1064
- breast, adjuvant program for, predictive value of bone scans in, 138
- breast, adriamycin in combination chemotherapy for, 2078
- breast, analysis of benefits of serial screening for, based upon mathematical model of, 1550
- breast, angiogenesis in, 239
- breast, association of body weight with recurrent, 1590
- breast, association between reserpine use and, 761
- breast, bone marrow examination in, 670
- breast, carcinomatous versus radiation-induced brachial plexus neuropathy in, 2154
- breast, combination chemotherapy of, 392
- breast, combination chemotherapy of metastatic, 396, 2073
- breast, Cowden's disease as cutaneous marker of, 2393
- breast, effect(s) of serum blocking factors on leukocyte adherence inhibition in, 1289
- breast, electron beam therapy in treating local recurrence of, in previously irradiated fields, 991
- breast, epidemiology of in 785 United States Caucasian women, 2341
- breast, genetic and pathologic findings in kindred with hereditary, 2055
- breast, immunofluorescent detection of estrogen receptors in, 907
- breast, immunologic reactivity in primary operable, 84
- breast, implications from SEER data on management of, 787
- breast, metastatic, treatment of with adriamycin and CCNU, 1235
- breast, New England Prototype Network Demonstration Project in, 1002
- breast, observations of the thymus in, 790
- breast, parenchymal patterns as risk indicator for prevalent and incident, 1093
- breast, patterns of relapse and survival following radical mastectomy, 1170
- breast, pituitary-ovarian function in patients with on adjuvant chemoimmunotherapy, 2084
- breast, plasma TSH and T<sub>4</sub> levels in, 666
- breast, primary, recent trends in treatment of, 2399
- breast, reproductive history and risk of, 747
- breast, use of antiestrogens in treatment of, correlation with estrogen receptor values, 797
- breast, use of mepitiostane as treatment in advanced, 758
- cardiac candidiasis in patients with, 2364
- cervical, combination chemotherapy treatment of advanced, 403
- cervical, invasive, vascular invasion and lymphocytic infiltration in, 228
- colorectal, increased *in vitro* tetraploidy with heritable syndromes of, with polyposis coli, 2330
- effect(s) of adriamycin and high-dose methotrexate on cell-mediated immunity in patients with, 814
- esophageal, pulmonary complications after combined therapy for, 17
- fibrinogen kinetics in, 1113
- gastric, incidence of in a coal mining region, 2355
- genitourinary, effect(s) of treatment on delayed cutaneous hypersensitivity responses in, 1765
- head and neck, effect(s) of intraarterial chemotherapy followed by radiotherapy on, 900
- immunohistochemical localization of chorionic gonadotropin-like protein in bacteria isolated from patients with, 1217
- large intestinal, survivorship from, among Caucasians and Japanese in Hawaii, 1571
- liver, hepatic artery ligation and adriamycin infusion chemotherapy for, 1249
- liver, superselective and selective one shot methods for treating inoperable, 1720
- localized arterial occlusions in patients treated with pelvic field radiation for, 2158
- lung, benzo(a)pyrene metabolism and blast transformation in peripheral blood mononuclear cells in, 192
- lung, ifosfamide in treatment of recurrent or disseminated, 1715
- lung, marginally resectable, aggressive approach to, 2040
- multifocal pontine lesions in patients with, treated with chemotherapy and CNS radiotherapy, 2112
- nasopharynx, in children, 1128
- nuclear magnetic resonance, application of malignancy index to gastrointestinal tumors, 183
- nuclear magnetic resonance in, malignancy index to discriminate malignant and normal tissue, 174
- pancreatic, advanced, combination chemotherapy treatment of, 387
- pancreatic, value of diagnostic aids in detecting, 868
- pediatric, team approach to management of, 29
- prostatic, lack of usefulness of bone marrow and calcium in staging patients with, 1433
- urothelial, advanced, DDP and cyclophosphamide in treatment of, 2121
- worth of specialized nutritional support in patient with, 2359

Cancer immunotherapy

- rebuttal by Rapp, 1208

**E**

Ear, ceruminous gland, adenocarcinoma, light and electron microscopic study, 545

Echography

- gray scale, use in evaluation of lung and pleural space, 1329
- use of in adriamycin cardiotoxicity, 1265

Electron beam therapy, use in treating local recurrence of breast cancer in previously irradiated fields, 991

Enamel, remineralization of by saliva substitute designed for use by irradiated patients, 1746

Endometrium

- carcinoma of, clear cell, clinicopathological study of and review of literature, 1911
- carcinoma of, effect(s) of stage and grade on survival, 996
- carcinoma of, management of clinical Stage I, 1016

Enzyme(s)

- activity profiles of, application of microchemical technique to elucidation of, within single human mammary tumors, 1863
- bone marrow, lack of usefulness in staging patients with prostatic cancer, 1433

Epithelium

- bronchial, metaplastic and neoplastic, cytological grading and Feulgen DNA-analysis of, 1511
- granulomas, association with Hodgkin's disease, 562
- histiocytes, high content of, with malignant lymphoma, 620

Esophagus

- carcinoma of, oat cell, case report of, 358
- carcinoma of, small cell, cytologic study of, 1890
- columnar epithelium, malignant transformation of, 554
- dysplasia of, evaluation of by cytofluorometric analysis, 1399

Estrogen

- receptor(s), immunofluorescent detection of in breast cancer, 907
- receptor(s), use of antiestrogens in treatment of breast cancer in correlation with values of, 797

**F**

Fanconi syndrome, association with cephalothin and gentamicin therapy, 769

Fever, episodes of in leukemia, 1610  
 Fibrinogen(s), kinetics of in patients with neoplastic disease, 1113  
 Fibromatosis, breast, case of, 1409  
 Fine needle aspiration biopsy, use in malignant lesions in and around pancreas, 2413  
 Fletcher colpostat system, extrapolation to other systems, 970  
 5-Fluorouracil, influence on cellular and humoral immunity, 64  
 Fucose-protein ratio, serum levels of, comparisons with CEA and hCG in breast carcinoma, 1871  
 Fucosyltransferases, plasma, evaluation of two, as marker enzymes in non-Hodgkin's lymphoma, 701

**G**

Gammopathy, monoclonal, association with reticulum cell sarcoma, immunoperoxidase study of, 1883  
 Gastrointestinal tract  
     involvement with diffuse histiocytic lymphoma, 1984  
     tumor(s) of, application of NMR malignancy index to, 183  
 Genitourinary system  
     cancer of, effect(s) of treatment on delayed cutaneous hypersensitivity responses in, 1765  
     malignancies of, detection of viral-like cores from urine of patients with, 706  
 Glioblastoma multiforme, complication of treatment for by acute leukemia, 383  
 Gonadotropin  
     chorionic, human, comparison with serum fucose-protein ratio in breast carcinoma, 1871  
     chorionic, human, measurement of levels of by hCG-beta RIA in gynecologic tumors, 692  
     chorionic, human, serum levels of, in patient with primary intracranial germ cell tumor, 2315  
 Granuloma  
     delayed hypersensitivity and lymphocytic transformation in patients with Hodgkin's disease and, 2192  
     epithelioid, associated with Hodgkin's disease, 562  
     lung, induced by BCG, 2209  
     plasma cell, in spinal cord meninges, case report of, 1929  
 Gynecomastia, endocrine studies in testicular tumor patients with and without, 369

**H**

Head and neck  
     cancer of, advanced, chemotherapy and radiation therapy for, 460  
     cancer of, effect(s) of intraarterial chemotherapy followed by radiotherapy on, 900

carcinoma, occult, immunologic basis for detection of, 912  
 Heart, candidiasis of, incidence of in cancer patients, 2364  
 Hemangiopericytoma, malignant, treatment of with chemotherapy, 1256  
 Hematology, computerized axial tomography in study of intracranial complications in, 487  
 Hemidesmosome(s), intercellular specializations similar to in human meningiomas, 2242  
 Heparin, prophylactic therapy within promyelocytic leukemia, 2484  
 Histiocytoma  
     inflammatory fibrous, case report of, 1467  
     malignant fibrous, analysis of 200 cases of, 2250  
     malignant, fibrous, and pleomorphic sarcoma, association with medullary bone infarcts, 607  
     malignant, fibrous, association with medullary bone infarcts, 607  
 Histiocytosis, malignant, occurrence of in patients with acute lymphocytic leukemia, 1967  
 Hodgkin's disease, see Lymphosarcoma  
 Hypercalcemia, mechanisms of, in malignancy, 2276  
 Hypersensitivity, delayed cutaneous, occurrence of with lymphocytic transformation in patients with Hodgkin's disease and granulomas, 2192  
 Hyperthermia, combined with radiotherapy for cutaneous malignant melanoma, 2143

**I**

Immunity  
     active-specific, in acute leukemia, 70  
     cell-mediated, changes in during radiotherapy, 1076  
     cell-mediated, *in vivo* and *in vitro*, effect(s) of adriamycin and high-dose methotrexate on, in cancer patients, 814  
     cell-mediated, suppression of, relationship(s) with halothane, surgery and artificial pulmonary metastases, 827  
     cellular and humoral, influence of 5-fluorouracil on, 64  
     tumor, LAI test for, 1034  
 Immunofluorescence technique, use of in detection of estrogen receptors in breast cancer, 907  
 Immunoglobulin, content of primary CNS lymphomas, immunohistological study of, 2197  
 Immunotherapy, monocyte function in patients with solid neoplasms during, with *Corynebacterium parvum*, 1761  
 Infection, herpes zoster and varicella, in children with Hodgkin's disease, 95  
 Inguinal node(s), metastases of, 919  
 Intestine, tumor(s) of, primary, binding studies of, 164  
 Intestine (large), cancer of, survivorship from, among Caucasians and Japanese in Hawaii, 1571

Isoantigens, A, B and H, presence of in urinary bladder carcinomas following radiotherapy, 1739

**J**

Jaw, keratocysts of, clinicopathologic study of, 803

Jaundice, obstructive, diagnosis and treatment of secondary to liver metastases, 773

**K**

Keratoacanthoma, development and transformation into skin squamous cell carcinoma, 12

Keratocyst(s), jaw, clinicopathologic study of, 803

Kidney

adenocarcinoma of, metastatic, pulmonary resection for, 712

carcinoma of, clear cell, rupture of in child, 1565

homograft, metastatic malignant melanoma transplanted via, 2426

long-term effect of CDDP on function and structure of, 1274

osteosarcoma of, primary, 724

transplantation, chronic granulocytic leukemia following successful, 2206

Kindred, genetic and pathologic findings in, with hereditary sarcoma, breast cancer, brain tumors, leukemia, lung, laryngeal and adrenal cortical carcinoma, 2055

**L**

Lactate dehydrogenase subretinal fluid, examination of in metastatic bronchogenic carcinoma of choroid, 2301

Larynx, carcinoma of, genetic and pathologic findings in kindred with hereditary, 2055

Leiomyoblastoma, gastric, recurrent and metastasizing, associated with multiple pulmonary chondro-hamartomas, 259

Leiomyosarcoma  
reassessment of uterine neoplasms originally diagnosed as, 1902

scrotal, case report of with electron microscopy, 1830

Leukemia  
acute, active-specific immunization in, 70

acute, complication of glioblastoma multiforme by, 333

acute, effect of melphalan on, 444

acute, liver disease complicating management of during remission, 737

advanced L1210, combination chemotherapy for, 1230

childhood, analysis of treatment in, 108

febrile episodes in, 1610

genetic and pathologic findings in kindred with hereditary, 2055

granulocytic chronic, development of following successful renal transplantation, 2206

granulocytic, chronic development of in renal transplant recipient, 7

"hairy" cell, chromosome abnormalities in, 1375

lymphoblastic acute, vincristine, prednisone and L-asparaginase induction of remission in children with following relapse, 428

lymphocytic acute, childhood, development of disseminated intravascular coagulation in, with poor prognostic features, 1642

lymphocytic acute, occurrence of malignant histiocytosis in patients with, 1967

lymphocytic chronic, complication of by diffuse histiocytic lymphoma, 422

lymphocytic, chronic lymph node in, 283

lymphocytic chronic, treatment of with COP chemotherapy, 1664

myelocytic, chronic karotypic progression in, 153

myelogenous, chronic atypical, with Philadelphia (PH<sup>+</sup>) chromosome and additional translocation, 1123

myelomonocytic acute, occurrence of ocular granulocytic sarcoma in Turkish children, 1606

myelomonocytic acute, simultaneous presentation of with multiple myeloma, 1381

nonlymphoblastic acute, adult, maintenance therapy of, 697

nonlymphocytic acute, lack of prognostic significance of pretreatment labeling and mitotic indices of narrow blasts in, 1154

nonlymphocytic acute, ovarian carcinoma terminating in, following alkylating agent therapy, 1676

promyelocytic acute, prophylactic heparin therapy in, 2484

reticuloendotheliosis, case report of with peripheral blood remission on androgen therapy, 1964

reticuloendotheliosis, "hairy" cells from, structural and functional studies on, 210

reticuloendotheliosis, polyclonal surface immunoglobulin on "hairy" cells in, 1804

Leukocyte(s)

adherence inhibition, effect(s) of serum blocking factors on, in breast cancer, 1289

adherence inhibition, test, for tumor immunity, 1034

Ligation, hepatic artery, treatment of hepatoma with and adriamycin infusion chemotherapy, 1249

Linitis plastica, colonic, primary, report of two cases and review of literature, 2420

Lip, carcinoma of, lower, treatment results for, 352

Liver  
ablation, partial, effect of 5-fluorouracil on regeneration and metabolism of after, in rat, 435

anaerobic abscess and intrahepatic metastases of, 682

cancer of, hepatic artery ligation and adriamycin infusion chemotherapy for, 1249  
cancer of, superselective and selective one shot methods for treating inoperable, 1728  
carcinoma of, hepatitis B antigen in black patients with, 245  
disease of, complication of management of acute leukemia during remission by, 737  
drug demethylation in, decrease in patients receiving chemoimmunotherapy, 1680  
metastases, diagnosis and treatment of obstructive jaundice secondary to, 773  
metastases, palliation of, 2013  
metastases, use of peritoneoscopy in detection of, 863

**Lung**  
analysis of aryl hydrocarbon hydroxylase activity in tissue and macrophages of, 2292  
aspergillosis, invasive, pathoradiologic correlation of, in compromised host, 2028  
bronchiolar carcinoma, report of 11 cases and review of the literature, 250  
cancer of, benzo(a)pyrene metabolism and blast transformation in peripheral blood mononuclear cells in, 192  
cancer of, ifosfamide in treatment of recurrent or disseminated lung cancer, 1715  
cancer of, marginally resectable, aggressive approach to, 2040  
cancer of, supraclavicular area treatment in radiotherapeutic management of, 124  
carcinoma of, bronchus, CCNU-adriamycin therapy in, 1704  
carcinoma of, genetic and pathologic findings in kindred with hereditary, 2055  
carcinoma of, pseudomesotheliomatous, ectopic production of salivary type amylase by, 1522  
carcinoma of, small cell, anaplastic, peritoneoscopy in staging of 190 patients with, special reference to subtyping, 2008  
carcinoma of, small cell, chemotherapy of with V.P. 16-213, 1710  
carcinoma of, small cell, effectiveness of prophylactic brain irradiation in, 2149  
chlorambucil therapy for pulmonary disease, 455  
chondro-harmartomas of, associated with recurrent and metastasizing gastric leiomyoblastoma, 259  
complications in, after combined therapy for esophageal cancer, 17  
echography of, and pleural space, 1329  
granulomas of, induced by BCG, 2209  
metastases, artificial, halothane, surgery, immunosuppression and, 827  
metastases, carcinomatous, contribution of surgery to management of, 833  
metastases, results of combined chemo-surgical therapy for, from testicular carcinoma, 850  
resection of for metastatic renal adenocarcinoma, 712

Lymphadenopathy, angioimmunoblastic, case report of, 266  
**Lymphocyte(s)**  
in lung cancer, transformation of in peripheral blood mononuclear cells, 192  
parafollicular small, prognostic significance of in follicular lymphoma, 1500  
Lymphoid cells, neoplastic, DNA distributions of, 201  
**Lymph node(s)**  
ablation of, prospective randomized study of efficacy of elective, in management of malignant melanoma, 948  
in chronic lymphocytic leukemia, 283  
cytology and colchicine sensitivity of viable cells from, with malignant lymphoma, 1845  
involvement in carcinoma of head of pancreas, 880  
supraclavicular, treatment of in radiotherapeutic management of lung cancer, 124

**Lymphocyte(s)**  
analysis of aryl hydrocarbon hydroxylase activity in, 2292  
delayed hypersensitivity and transformation of, in patients with Hodgkin's disease and granulomas, 2192  
mediated reactivity against malignant melanoma detected by microcytotoxicity assay employing Technetium-99m labeled target cells, 2174

**Lymphoma**  
blood count depression in, value of <sup>111</sup>Indium chloride bone marrow scanning in diagnosis of, 143  
Burkitt's, association with proximal tubular dysfunction, 568  
Burkitt's, prolonged complete remission following high-dose chemotherapy of, in relapse, 1059  
CNS, primary, immunohistological study of immunoglobulin content of, 2197  
computerized tomography in patients with, 480  
follicular, prognostic significance of parafollicular small lymphocytes in, 1500  
gastric, cytological diagnosis of, 1456  
histiocytic, diffuse, complication of chronic lymphocytic leukemia by, 422  
histiocytic, diffuse, involvement with gastrointestinal tract, 1984  
lymphocytic, combination versus single agent chemotherapy for, 23  
lymphocytic and lymphocytic-histiocytic, prednimustine treatment of, 112  
malignant, in angioimmunoblastic lymphadenopathy, 578  
malignant, cytology and colchicine sensitivity of viable cells from lymph nodes with, 1845  
malignant, with high content of epithelioid histiocytes, form of so-called "Lennert's lymphoma," 620  
malignant, small lymphocytic type, clinicopathologic study of, 1440

Mediterranean abdominal, pathological aspects of, 1340

non-Hodgkin's, in children, analysis of 122 cases, 2372

non-Hodgkin's, clinicopathologic study comparing two classifications of, 303

non-Hodgkin's, evaluation of two plasma fucosyltransferases as marker enzymes in, 700

non-Hodgkin's, study of in children, 1997

polypoid, gastrointestinal, North American, new presentation of Alpha Heavy Chain Disease, 1161

survival of nodular versus diffuse pattern lymphocytic poorly differentiated, 1990

Lymphosarcoma

- advanced, ABVD chemotherapy for after failure of MOPP, 2107
- advanced, treatment of with B-CAVe following MOPP failure, 1670
- association with epithelioid granulomas, 562
- comparison of methyl-CCNU and CCNU in patients with advanced, 1658
- decreased monocyte function in patients with, 1794
- delayed hypersensitivity and lymphocytic transformation in patients with granulomas and, 2192
- diagnostic tests and, 2388
- herpes zoster and varicella infections, in children with, 95
- idiopathic thrombocytopenic purpura in, 743
- lymphocyte depletion type, clinicopathologic study of, 293
- mutagenic effect of polychemotherapy in, 12
- nasopharynx, panhypopituitarism resulting from, 1134
- pediatric, bacterial infections in, relationship to radiotherapy, chemotherapy and splenectomy, 1949
- pregnancy outcome of patients treated for, 1317

Nuclear magnetic resonance, in cancer, index to discriminate malignant and normal tissue with, 174

Nutrition, specialized support, worth of in cancer patient, 2359

## O

Ommaya reservoir, newly recognized complications and recommendations for insertion and use, 2431

Osteoblastoma, studies on fine structure of, and localization of nonspecific acid and alkaline phosphatase, 1811

Osteosarcoma  
improved survival with anticoagulation and amputation, 2475  
kidney, primary, study of, 724  
transepiphyseal extension of, 1526

Ovary  
carcinoma of, involvement of CNS by, 776  
epithelial cystadeno-carcinomas of, CEA levels in, 2335  
carcinoma of, clear cell, clinicopathological study of and review of literature, 1911  
carcinoma of, effect(s) of radiation on cell-mediated cytotoxicity and lymphocyte subpopulations in, 1040

dysgerminoma of, treatment for, 986  
tumor(s) of, benign, clinicopathologic differences observed in a Malaysian hospital, 1538  
tumor(s) of, germ cell, endodermal sinus, serum AFP in diagnosis and management of, 272

## P

Pancreas  
cancer of, advanced, combination chemotherapy treatment of, 387  
cancer of, value of diagnostic aids in detecting, 868  
carcinoma of, high-dose, small-volume irradiation treatment of, 1087  
carcinoma of, lymph node involvement in, 880  
fine needle aspiration biopsy of malignant lesions in and around, 2413

Panhypopituitarism, result of Hodgkin's disease of nasopharynx, 1134

Paraganglioma, mediastinal, report of four cases and review of literature, 2405

Peritoneoscopy  
use of in detection of liver metastases, 863  
use in staging of 190 patients with small cell anaplastic lung carcinoma, special reference to subtyping, 2008

Phosphoglucose isomerase, subretinal fluid examination of in metastatic bronchogenic carcinoma of choroid, 2301

Pituitary  
tumor(s) of, primary intracranial germ cell, serum levels of AFP and hCG in, 2315  
tumor(s) of, transitional cell, 337

Pituitary-ovarian system, function in breast cancer patients on adjuvant chemoimmunotherapy, 2084

Plasmacytoma  
simultaneous extramedullary of vagina and vulva, 384  
stomach, diagnosis of with aid of immunoperoxidase technique, 675

Pleural effusion(s), malignant, tetracycline and quinacrine in control of, 1188

Pregnancy, outcome of in patients treated for Hodgkin's disease, 1317

Prostate  
adenocarcinoma of, study of well differentiated, 2046  
cancer of, lack of usefulness of bone marrow and calcium in staging patients with, 1433  
carcinoma of, treatment of with external radiotherapy, 2131  
demonstration of as origin of metastases, immunohistochemical method for formalin-fixed embedded tissue, 1788  
tumor of, primary yolk-sac, 1395

Protein, choriogonadotropin-like, immunohistochemical localization of in bacteria isolated from cancer patients, 1217

Proximal tubular dysfunction, association with Burkitt's lymphoma, 568  
Purpura, thrombocytopenic, idiopathic, rare occurrence in Hodgkin's disease, 743  
Pyriform sinus, carcinoma of, analysis of treatment results and patterns of failure for, 1008

Society of Surgical Oncology, Presidential address, 831

Spinal cord

- plasma cell granulomas of meninges, case report of, 1929
- thoracic, radiation myelopathy of, in long-term survivors treated with radical radiotherapy using conventional fractionation, 1751

Spleen, ablation of, relationship to bacterial infections in pediatric Hodgkin's disease, 1949

Stomach

- adenocarcinoma of, review of 1,497 cases, 941
- cancer of, in a coal mining region, 2355
- plasmacytoma, diagnosis of with aid of immunoperoxidase technique, 675

Sunlight, risk factor in malignant melanoma of skin, 2018

Surgery

- adjuvant chemotherapy after mastectomy for breast cancer, 2088
- combined with chemotherapy, results of for pulmonary metastases from testicular carcinoma, 850
- contribution to management of carcinomatous pulmonary metastases, 833
- effect(s) of treatment with for genitourinary cancer on delayed cutaneous hypersensitivity responses, 1761
- in esophageal cancer, pulmonary complications after, combined with chemotherapy and radiotherapy, 17

relationship(s) with halothane, immunosuppression artificial pulmonary metastases, 827

thoracic, rationale for timing of and a model for adjuvant chemotherapy, 841

**T**

Technetium-99m microcytotoxicity assay, detection of lymphocyte mediated reactivity against malignant melanoma with, 2174

Teratoma, malignant mediastinal, removal of in 15-year-old girl, 1623

Testes

- anaplastic seminoma of, ultrastructural analysis of three cases, 538
- carcinoma of, results of combined chemosurgical therapy for pulmonary metastases from, 850
- neoplasm of, occurrence in Kenyan Africans, 2452
- tumor(s) of, advanced, biochemical markers in, 648
- tumor(s) of, endocrine studies in patients with and without gynecomastia, 369

Tetracycline and quinacrine, use of in control of malignant pleural effusions, 1188

Tetraploidy, increase of *in vitro*, tissue specific within heritable colorectal cancer syndromes with polyposis coli, 2330

Thrombocytopenia

- fatal myeloproliferative syndrome in family with platelet dysfunction and, 1959
- severe, following intraleisional BCG therapy, 820

Thymoma

- immunologic and electron microscopic study of, 2183
- malignant, radiation therapy control of, 117
- selective uptake of <sup>75</sup>Se-selenomethionine by, with pure red cell aplasia, 1323

Thymus, observations of in breast cancer, 790

Thyroid

- adenoma of, toxic, light and electron microscopic characteristics, 528
- carcinoma of, medullary, electron and immuno-electron microscopic study of, 2226
- carcinoma of, medullary, production of several substances by, 1106
- carcinoma of, spindle and giant cell, review of 84 cases of, 2267
- parenchymal patterns following low-dose childhood irradiation, 1098
- plasma cell neoplasm involving, 1140

Thyroid-stimulating hormone, plasma levels of, in breast cancer, 666

Thyroxine, plasma levels of, in breast cancer, 666

Tissue, immunohistochemical method for formalin-fixed embedded, demonstration of prostatic origin of metastases, 1788

Tongue, carcinoma of, squamous cell, development of in renal transplant survivor, 1

Tonsil, carcinoma of, successful management of, 1054

Tumor(s)  
bone, giant cell, cryosurgery in treatment of, 957  
brain, development of clonogenic cell assay for human, 2305  
brain, genetic and pathologic findings in kindred with hereditary, 2055  
breast, cystosarcoma phyllodes, 1179  
breast, single human, application of microchemical technique to elucidation of enzyme activity profiles within, 1863  
cutaneous, microscopic-controlled excision of, 653  
endodermal sinus, first reported case of arising in vulva, 1627  
gastrointestinal, application of NMR malignancy index to, 183  
genitourinary, malignant, viral-like cores from urine of patients with, 706  
gynecologic, hCG-beta RIA in, 692  
immunity, changes in during therapy determined by LAI and dermal testing, 1034  
intestinal, primary, binding studies of, 164  
melanoma skin test antigens of improved sensitivity prepared from vesicular stomatitis virus-infected cells of, 1781  
norepinephrine-producing, case report of in bilateral breasts, 2002  
ovarian, benign, clinicopathologic differences observed in a Malaysian hospital, 1538  
perineurial cell, benign, ultrastructural identification of, 1823  
pituitary, primary intracranial germ cell, serum levels of AFP and hCG in, 2315  
pituitary, transitional cell, development of from Rathke's cleft cyst, 337  
prostatic, primary yolk-sac, 1395  
reticuloendothelial, relationship with serum levels of selenium, 1462  
salivary gland, malignant, radiation therapy in treatment of, 502  
solid, malignant, qualitative and quantitative study of monocytes in patients with, 2236  
testicular, advanced, biochemical markers in, 648  
testicular, endocrine studies in patients with, with and without gynecomastia, 369  
Wilms', histological grading of as potential prognostic factor, 1199  
Wilms', histopathology and prognosis of, results from First National Wilms' Tumor Study, 1937  
Wilms', prognostic factors for patients without metastases at diagnosis, 1577

**U**

Urothelium, cancer of, advanced, DDP and cyclophosphamide in treatment of, 2121  
Urethra, carcinoma of, male, treatment of with radiotherapy, 1313  
Urine, detection of viral-like cores from, in patients with genito-urinary malignancies, 706  
Uterus  
neoplasm of, reassessment of, originally diagnosed as leiomyosarcomas, 1902  
sarcoma of, granulocytic, study of, 687

**V**

Vagina, simultaneous extramedullary plasmacytomas of vulva and, 2468  
Vulva  
first reported case of endodermal sinus tumor arising in, 1627  
simultaneous extramedullary plasmacytomas of vagina and, 2468

## A

Adenocarcinoid, appendix, mucin-1 producing, study of 39 cases, 2781  
appendix, ultrastructure of goblet cell type of, 2687  
Adenocarcinoma, acinic cell, of minor salivary glands, cases of, 678  
colorectal, characteristics of with low levels of pre-operative CEA, 635  
endometrial, gonadal dysgenesis with, 512  
gastric, primary gastric malignant lymphoma followed by, case reports of, 2039  
pancreatic, case report of and immunoblastic lymphadenopathy of pancreas, 1883  
Adenoid, carcinoma of, cystic, arising of in salivary glands, 265  
Adenoma(s), colon and rectum, incidence of in northern Norwegian population, 2839  
metastasizing pleomorphic, study of, 2407  
pituitary, value of computerized tomography in delineating suprasellar extension of for radiotherapeutic management, 1066  
pleomorphic, glycosaminoglycan-synthetic activity of and adenoid cystic carcinoma and nonneoplastic tubuloacinar cells of salivary gland, 202  
Adenopathy, metastatic cervical, evaluation of fast neutron beam teletherapy of from squamous cell carcinomas of head and neck, 2517  
Adrenal cortex, carcinoma of mitotane therapy of, 2177  
Alpha-fetoprotein, serum levels of marker of effect of postoperative radiotherapy and/or chemotherapy in testicular cancer, 2182  
study of and hCG in sera and tumor cells of patients with testicular seminoma, 2768  
Ameloblastoma, controversial treatment of, 357  
American Cancer Society, and National Cancer Institute National Conference on the Lymphomas and the Leukemias, Opening Address, 813  
Amino acids, peripheral, levels of in patients with cancer, 2909  
Amniotic fluid, levels of CEA and NCA in, of normal and abnormal pregnancies, 1579  
Anal duct, carcinoma of, mucinous, clinical presentation of as vaginal cyst, 566  
Angioimmunoblastic lymphadenopathy, case report of with T-cell deficiency, 447  
Angiosarcoma, hepatic, association of with thorotраст, 2610  
Anguidine, phase I evaluation of, 23  
Anti-fetal antibodies, tumor associated, natural occurrence of during normal pregnancy, 1653  
Antigen, HLA, isolation of by affinity chromatography using anti- $\beta_2$  microglobulin antiserum, 1601  
I and i, on normal and leukemic leukocytes, 140

nonspecific cross-reacting, levels of in amniotic fluid of normal and abnormal pregnancies, 1579  
red cell, multiple, loss of in acute granulocytic leukemia, 2248  
tumor, ovarian, discussion of, 1616  
Anti-Microglobulin antiserum, isolation of HLA and tumor antigens by affinity chromatography employing, 1601  
Antineoplastic agents, acute cardiac toxicity of as first manifestation of pheochromocytoma, 2003  
Anti-T and anti-B lymphocyte sera, study of surface markers in acute lymphocytic leukemia by using, 2641  
Appendix, adenocarcinoid, mucin-producing, study of 39 cases, 2781  
adenocarcinoid of, ultrastructure of goblet cell type of, 2687  
Apudoma, liver, malignant, case of with symptomatic intractable hypoglycemia, 686  
Aspergillosis, lung, recognition and successful management of in leukemia, 2019  
Astrocytoma(s), Grades III and IV, fast neutron and mixed beam teletherapy for, 96  
Atrial myxoma, malignant fibrous histiocytoma of heart presenting as, 2466  
Axilla, postirradiation sarcoma of, 118

## B

Bacillus Calmette-Guerin, disease, disseminated, associated with immunotherapy by scarification in acute leukemia, 167  
methanol extraction residue of, intralesional injection of into cutaneous metastases of malignant melanoma, 2648  
tumor cell vaccine, specific immunotherapy of established visceral micrometastases by or as adjunct to surgery, 2613  
Benzo(a)pyrene, human plasma component that binds, 2733  
Biopsy, thin needle, use in diagnosis of ureteral obstruction with malignancy, 714  
Bladder, cancer of, clinical, in sponge matrix tissue culture, 1364  
cancer of, incidence of in southern Iran, 353  
carcinoma of, association of with ectopic production of gonadotropin, 2773  
inverted papilloma and papillary transitional cell carcinoma of, 1904  
papilloma of, inverted, cases of, 708  
Bladder/urethra, carcinoma of, plasma levels of CEA in patients with, 287  
Blood, products, transmission of CEA by, 1568

Bone, malignant fibrous histiocytoma of, 640  
marrow, different cell clones in and spleen of patient with chronic myelocytic leukemia in blastic phase, 2707  
marrow, metastasis, variables predictive of, 2373  
marrow, regeneration of following large field radiation, 1057  
marrow, transplantation of for acute leukemia, 895  
multiple fibroxanthosarcoma of, case of, 770  
Bone scintigraphy, use of in primary tumors of head and neck, 111  
Bowenoid papulosis, penis, case reports of, 1890  
Brain, irradiation of, prophylactic, in patients with inoperable lung carcinoma, 1135  
oligodendrogloma, case of sarcoma arising in, 2753  
sarcoma of, primary, light and electron microscopic features of, 1298  
Breast, cancer of, advanced, adriamycin versus methotrexate in 5-drug combination chemotherapy for, 2141  
cancer of, advanced, combination chemotherapy for with two regimens containing adriamycin, 27  
cancer of, advanced, combined cytotoxic and progestogen therapy for, 1680  
cancer of, advanced, VATH chemotherapy for refractory to prior chemotherapy, 2534  
cancer of, association of with meningioma, 1992  
cancer of, CEA levels in, 1308  
cancer of, clinical correlation between CEA and, 1507  
cancer of, identification of patients with at high risk of early recurrence after radical mastectomy, 2809  
cancer of, invasive, detection and significance of occult axillary node metastases in, 2025  
cancer of, levels of CEA in, 1520  
cancer of, operable, conservative management of, 2045  
cancer of, operable, management of, surgeon's view, 2066  
cancer of, operable, preoperative radiotherapy in, 1120  
cancer of, operable, primary management of by minimal surgery and radiotherapy, 2054  
cancer of, operable, relation between time-dose and local control of treated by tumorectomy and radiotherapy or by radical radiotherapy alone, 2059  
cancer of, variation of macrophage migration by factor from regional lymph node cells of patients with, 2097  
carcinoma of, association of with adenosquamous carcinoma of endometrium, 326  
carcinoma of, CEA and other tumor marker levels in tissue and serum or plasma of patients with, 1870  
carcinoma of, comparative evaluation of CEA and GCDFP as plasma markers for, 1646  
carcinoma of, "early," postoperative radiotherapy for, 1126  
carcinoma of, evaluation of CEA as plasma monitor for, 1512  
carcinoma of, interrelations with axillary lymph nodes in organ culture, 2710  
carcinoma of, monitoring role of plasma CEA alone and with other tumor markers in, 1448  
lobular neoplasia of, study of, 737  
lymphangioma, circumscription following radical mastectomy and radiation therapy, 1989  
Bronchiolus-alveolus, carcinoma of, correlative clinical and cytologic study of, 2759  
Bronchus, carcinoma of, measurement of CEA levels in, 1484  
carcinoma of, prognostic value of preoperative CEA plasma levels in patients with, 1477  
carcinoma of, small cell, growth rates of, 2880  
carcinoma of, study of intradermal BCG in patients with, 1784  
small cell, chemoimmunotherapy of, 34

**C**

Cancer, advanced, study of intralesional, intralymph node, intravenous and intraperitoneal *Corynebacterium parvum* in patients with, 1912  
association of iatrogenic lactic acidosis with hypertonic glucose administration in patient with, 800  
bladder, clinical, in sponge matrix tissue culture, 1364  
bladder, incidence of in southern Iran, 353  
breast, advanced, adriamycin versus methotrexate in 5-drug combination chemotherapy for, 2141  
breast, advanced combination chemotherapy for with two regimens containing adriamycin, 27  
breast, advanced, combined cytotoxic and progestogen therapy for, 1680  
breast, advanced, VATH chemotherapy for refractory to prior chemotherapy, 2534  
breast, association of with meningioma, 1992  
breast, CEA levels in, 1308  
breast, clinical correlation between CEA and, 1507  
breast, identification of patients with high risk of early recurrence after radical mastectomy, 2809  
breast, invasive, detection and significance of occult axillary node metastases in, 2025  
breast, levels of CEA in, 1520  
breast, operable, conservative management of, 2045  
breast, operable, management of, surgeon's view, 2066  
breast, operable, preoperative radiotherapy in, 1120  
breast, operable, primary management of by minimal surgery and radiotherapy, 2054  
breast, operable, relation between time-dose and local control of treated by tumorectomy and radiotherapy or by radical radiotherapy alone, 2059  
breast, variation of macrophage migration by factor from regional lymph node cells of patients with, 2097  
cell-mediated immunity to varicella-zoster virus in children being treated for, 159  
colon, advanced, 5-FU-Mito versus 5-FU-Methyl in chemotherapeutic treatment of, 1228  
colon, colonoscopic biopsy and cytology in diagnosis of, 2849  
colon, use of serial CEA determinations to predict recurrence of and when to do second-look operation, 1422  
colorectal, disseminated, CEA as monitor of chemotherapy in, 1428

colorectal, reversible elevation of plasma CEA associated with iatrogenic unilateral hydronephrosis in patient operated for, 1437

colorectal, role of CEA as monitor of radiation therapy for, 1434

colorectal, sequential chemoimmunotherapy of, 2169

gallbladder, natural history study of, 330

gallbladder, occurrence of among American Indians in tricultural New Mexico, 2472

head and neck, combination chemotherapy of, 1661

head and neck, 24-hour infusion of cis-platinum in, 2135

human, heterotransplantation of into nude mice, model system for chemotherapy for, 2269

impact of therapy for on survival, 1008

large bowel, metabolic epidemiology of in North American and Finnish population, 2832

levels of and total mortality among active Mormons, 1943

liver, primary, chemotherapy studies in, 2149

lung, incidence of as second primary, 2887

lung, histologic findings in tracheobronchial tree of uranium miners and non-miners with, 483

lung, levels of CEA and ferritin in patients with before and during therapy, 2802

lung, locally advanced, clinical research on treatment of, 1129

lung, postresection locally recurrent, clinical course and treatment results of patients with, 2478

lung, survival study showing results of AMCOF chemotherapy for, 385

occurrence of among users of preparations containing vitamin A, 808

ovarian, improved prognosis in children with following modified VAC chemotherapy, 1234

ovarian and cervical, monitoring role of CEA and other tumor markers in, 1452

overview on new immunologic markers for diagnosis of, 1595

pancreatic, diagnostic accuracy and survival statistics of, 2494

pancreatic, geographic correlates of in the United States, 373

patients with, mental disorders in, 1385

patients with, simple technique for increasing knowledge of informed consent to treatment, 793

peripheral amino acid levels in patients with, 2909

prostatic, immune response of patients with to cytomegalovirus-infected and -transformed human cells, 1766

prostatic, metastatic, cyclophosphamide versus adriamycin, 5-fluorouracil and cyclophosphamide in treatment of, 2546

prostatic, response of serum haptoglobin to hormone treatment and relation of pretreatment values to mortality in, 1720

testicular, metastatic, VAB II treatment in, 2162

testicular, serum AFP and hCG as markers of effect(s) of postoperative radiotherapy and/or chemotherapy in, 2182

uterine, changing trends of and cytology over 20 year period, 2439

Cancer Family syndrome, CEA in, 1574

Carcinoembryonic antigen, analytical reliability of zirconyl phosphate method of plasma, 1406

assay of, adjunct to liver scanning in hepatic metastases detection, 1457

in Cancer Family syndrome, 1574

cellular content of in urothelial carcinoma, 1533

circulating levels of in pancreatic carcinoma, 1468

clinical correlation between breast cancer and, 1507

clinical significance of in plasma and tumors of patients with gynecologic malignancies, 1527

comparative evaluation of with GCDFP as plasma markers for breast carcinoma, 1646

disparity of indirect and direct zirconyl-gel assays for, 1589

elevated levels of in cord plasma, 224

elevated levels of in patients with suspected or established medullary thyroid carcinoma, 1498

evaluation of as plasma monitor for breast carcinoma, 1512

historical perspectives, pitfalls and projections in clinical medicine, 1399

immunochemical complexity of, 1585

immunocytochemical detection of in conventional histopathology specimens, 1546

immunohistochemistry of in small intestine, 1554

immunoperoxidase detection of, 1540

influence of specialty affiliation on physicians' pattern of use of, 1463

initial levels of and rate of change in pancreatic carcinoma following surgery, chemotherapy and radiation therapy, 1472

introduction to international conference on the clinical uses of, 1397

levels among vinyl chloride and polyvinyl chloride exposed workers, 1560

levels of and ferritin in patients with lung cancer before and during therapy, 2802

levels of in advanced gastric carcinoma, 623

levels of in amniotic fluid of normal and abnormal pregnancies, 1579

levels of in benign gastrointestinal disease states, 1412

levels of in breast cancer, 1308, 1520

levels of in cystadenocarcinoma, 632

levels of in patients with esophageal carcinoma, 1492

levels of in tissue and serum or plasma of patients with primary mammary carcinoma, 1870

levels of in uterine cervix carcinoma, 2428

measurement of levels of in patients with bronchogenic carcinoma, 1484

monitoring role of alone and with other tumor markers in colorectal and mammary carcinoma, 1448

monitoring role with other tumor markers in ovarian and cervical cancer, 1452

monitor of chemotherapy in disseminated colorectal cancer, 1428

plasma levels of in patients with carcinoma of bladder/urethra, 287

plasma levels of, prognostic value of preoperative in patients with bronchogenic carcinoma, 1477

plasma levels of reversible elevation of associated with iatrogenic unilateral hydronephrosis in patient operated for colorectal cancer, 1437  
pre- and postoperative uses of, 1419  
preoperative, characteristics of adenocarcinomas of colorectum with low levels of, 635  
presence of in malignant and nonmalignant gynecologic tumors, 581  
radioimmunoassay of, repeated, long-term follow-up of colorectal carcinoma patients by, 1439  
role of as monitor of radiation therapy for colorectal cancer, 1434  
serial determinations of, use of to predict recurrence of colon cancer and when to do second-look operation, 1422  
transmission of by blood products, 1568  
Carcinoid(s), tracheal, case reports of, 2870  
Carcinoma, adenoid cystic, arising of in salivary glands, 265  
adenoid cystic, glycosaminoglycan-synthetic activity pleomorphic adenoma and, and nonneoplastic tubuloacinar cells of salivary gland, 202  
adenosquamous, of endometrium, association of breast carcinoma with, 326  
adenosquamous, skin appendages of vulva, clinical and ultrastructural study of, 1851  
adrenal cortical, mitotane therapy of, 2177  
anal duct, mucinous, clinical presentation of as vaginal cyst, 566  
bladder, association of with ectopic production of gonadotropin, 2773  
bladder/urethra, plasma levels of CEA in patients with, 287  
breast, association of with adenosquamous carcinoma of endometrium, 326  
breast, comparative evaluation of CEA and GCDFP as plasma markers for, 1646  
breast, "early," postoperative radiotherapy for, 1126  
breast, evaluation of CEA as plasma monitor for, 1512  
breast, interrelations with axillary lymph nodes in organ culture, 2710  
breast, primary, CEA and other tumor marker levels in tissue and serum or plasma of patients with, 1870  
bronchial, study of intradermal BCG in patients with, 1784  
bronchiolo-alveolar, correlative clinical and cytologic study of, 2759
